

Sprint 2 Plan

Product Name: Boba Finder (To Be Changed)

Team Name: Boba Spot

Revision Number & Date: v1.0 (10/24/2023)

High Level Goals:

- User-friendly app design with rankings of shops for users
- Sign-in page for users to login/create their accounts
- Favorites page to save a user's favorite drinks
- Boba submission form with customizable UI
- Set up request submit to backend

User Stories:

User Story 1 (Custom Page): I don't know what drink I want today and would like a randomizer

Task 1: Create a boba GUI that changes based on CSS classes applied

Task 2: Create a form of two inputs: tea base, toppings

Task 3: Send form data to some backend (not set up yet)

Task 4: Randomization of boba customization

Total for User Story: 15 hrs

User Story 2 (Favorites Page): I am a frequent user and I want to save my favorite drinks

Task 1: Create static favorite drinks

Task 2: Create functionality to delete favorites

Task 3: Create functionality add favorites (direct user to custom page)

Total for User Story: 20 hrs

User Story 3 (Splash Page): I am a frequent user and would like to create an account to expedite my app usage

Task 1: Create a logo

Task 2: Create 3 buttons

Task 3: Have each button move the user to a corresponding webpage

Task 4: Account login/sign up page

Total for User Story: 10 hrs
