Sprint 2 Report

Product Name: Boba Finder
Team Name: Boba Spot
Revision Number & Date: v1.5 (11/7/2023)

Actions to stop doing:

- Working on separate Git branches that haven't been merged with main
    - Should pull from main branch before adding new code for easier merging and organization

Actions to start doing:

- Pulling from main branch before adding new functionality or adding more code
    - Helps avoid merge conflicts and difficulty merging all the branches together at the end of the sprint

Actions to keep doing:

- In person meetings
    - We were able to communicate more effectively in person and having access to a whiteboard to write on physically and talking face to face helped communicate ideas
- Individual development and working on different tasks in teams of two
    - Having the team split up to work on different tasks was more time efficient and we got a lot of work done for our second sprint

Work completed:

- Tasks:
    - Finished Splash Page
    - Finished Custom Page
    - Finished Favorites Page

- User Stories:
    - 1: I don't know what drink I want today and would like a randomizer
    - 2: I am a frequent user and I want to save my favorite drinks
    - 3: I am a frequent user and would like to create an account to expedite my app usage

Work not completed:

- User Stories:
    - Completed All

Work completion rate:

- Total number of user stories completed: 3
- Total number of estimated ideal work hours completed: 50
- Total number of days during prior sprint: 14 days
- User stories per day: 1 user story / 16 hours
- Ideal work hours/day: 3.5 hours
- Past average user stories/day: 1 user story / 13 hours
- Past average ideal work hours/day: 2 hours
